

Anticipated School Sampling Schedule

In order to provide an opportunity for schools to plan and prepare for upcoming sampling events, DOE and BATA Environmental have developed the attached calendar.

This calendar should be seen as a dynamic document for planning purposes, and not a commitment to sample a particular district or school on a specific date. There are many factors that can impact a schedule, and a change for one school or district often impacts other planned sampling dates. Examples of situations that may impact the overall schedule include:

- Use of water forcing a rescheduling of sampling. Outlets that are to be sampled must be stagnant for 8-18 hours before use. Use of water in a school at the same time sampling is occurring, such as prep work in a kitchen, may lead to a stop in sampling and rescheduling of the work for another day.
- Changes in school schedules – school closures and delays for weather or other issues, changes in schedules due to athletic events, etc., may lead to rescheduling. Samples are not collected if the school has been empty for more than 24 hours.
- Follow-up sampling trips – larger schools may require more than one day to complete, sampling day issues can also cause delays that prevent sampling from being completed in one day.

DOE is working with BATA to implement pre-sampling visits to schools. This will allow for mapping, location and labeling/photographing of fixtures and other pre-sampling activities to take place, with the intent of making sampling as efficient as possible.

Please keep in mind that water use and other preventable delays will not only cause loss of staff time and disruption for your facility, but may impact others as well. Please reach out to Jamie Mack, Education Associate, Capital Project, if there are questions or concerns

Updated Master Schedule - May 15, 2023

School District	Est. Start Date	Est. End Date
Indian River		Completed
Colonial		Completed
Capital		Completed
Christina		In Progress
MOT Charter High School		Completed
MOT Charter K8		Completed
Smyrna		Completed
Sussex Technical		Completed
Seaford		Completed
Polytech		Completed
Red Clay		Completed
Charter School of Wilmington		Completed
Delmar		Completed
Woodbridge		Completed
NCCVT		Completed
Freire		Completed
Campus Community School		Completed
Thomas A Edison Charter		Completed
Cape Henlopen		Completed
Appoquinimink		Completed
East Side Charter School		Completed
Caesar Rodney		Completed
Laurel		Completed
Delaware Military Academy		Completed
Early College HS @ DSU		Completed
Academia Antonia Alonso		Completed
First State Military		Completed
Brandywine		Completed
Charter School of New Castle		Completed
Lake Forest		Completed
First State Montessori		Completed
Gateway Charter School		Completed
Milford		Completed
Las Americas Asira Academy		Completed
Odyssey Charter School		Completed
Great Oaks Charter School		Completed
Kuumba Academy		Completed
Positive Outcomes Charter		Completed
Newark Charter		Completed
Providence Creek		Completed
Sussex Academy		Completed
Sussex Montessori School		Completed
Academy of Dover		Completed
